ABOUT ME

Growth and marketing lead with 8+ years driving GTM execution, campaign performance, and audience growth across crypto, DeFi, and fintech products. Took Plume Network's growth motion from zero to 1M+ X, 400k+ Discord, and 295k+ Telegram with zero paid acquisition, building the performance dashboards (GA, Mixpanel) that separated signal from noise across a 3-month testnet launch. Currently owns growth strategy and campaign KPIs for Provenance Blockchain's 12k+ member, multi-brand ecosystem (Figure, Figure Markets, Provenance, Hastra, YLDS), running a biweekly content show and managing the team that executes on it. Writes own campaign copy and narrative rather than briefing it out, and is fluent in the token-holder and on-chain dynamics that come with marketing a crypto-native product. Uses AI tools (ChatGPT, Claude, n8n) daily to move faster on reporting, content, and research. Bilingual (ES/EN), comfortable working async across global timezones.

PROFESSIONAL EXPERIENCE

Community Lead

10/2025 – Present

Provenance Blockchain

- Own paid and organic growth strategy across a multi-brand ecosystem (Figure, Figure Markets, Provenance, Hastra, YLDS) with 12k+ combined members, tracking growth and engagement KPIs monthly.
- Launch and host Provenance Pulse Live, a biweekly program connecting ecosystem partners, validators, and protocol teams with the broader founder and user community, owning content strategy and copy for each episode.
- Own partner relationships across the ecosystem: coordinating co-marketing initiatives, joint announcements, and mutual amplification with strategic collaborators.
- Turn daily community and campaign performance signal into concrete action points for product and content teams, including feedback loops, storytelling campaigns, and community polls.
- Manage and coordinate a 24/7 moderator team, supported by AI-driven moderation and reporting automations (n8n, custom bots), ensuring consistent community health and brand voice across all channels.

Community & Marketing Ops Lead

01/2024 – 08/2025

Plume Network

- Scaled organic community from zero to 1M+ X followers, 400k+ Discord, and 295k+ Telegram through relationship-driven growth programs with zero paid acquisition.
- Ran paid social campaigns and built performance and engagement dashboards (GA, Mixpanel) to inform GTM and content decisions across a 3-month testnet window and beyond.
- Designed and wrote CT-native campaign narratives and copy, using AI tools and n8n automations to speed up content generation, scheduling, and research.

Community Manager

07/2022 – 07/2023

BNB Chain

- Led regional ecosystem growth, partnerships, and paid campaign programs for BNB Chain across 7+ countries
- Built and managed relationships with universities, accelerators, developer communities, and KOLs to drive ecosystem adoption and co-marketing initiatives across multiple markets.
- Designed and executed end-to-end activation programs including hackathons, developer bootcamps, university partnerships, and IRL networking events.
- Collaborated with product and DevRel teams to align multi-market strategy with global priorities, delivering market analysis and country-level performance reporting.

Crypto Community Manager

10/2020 – 04/2022

Bitso

- Built and scaled Bitso's early crypto community to 30k+ members, combining organic programs with paid campaigns and campaign performance reporting.
- Acted as the feedback loop between community, product, and content teams, translating qualitative and quantitative insights into product improvements and content strategy.
- Supported brand education, positioning, and copy during key crypto adoption moments across LATAM.

SKILLS

Growth & GTM
